GO GREEN PROTECT OUR PLANET

At National Schoolwear Centres we passionately believe that quality and service are the key ingredients to success in retailing school uniform. We do not advocate “disposable clothing” we believe that parents want quality and exceptionally good value. It is especially important that uniform lasts and does the job properly.

Over 70% of our uniform is made from either recycled plastic bottles or yarn. All our uniform is proven to last many times longer than inferior supermarket garments.

We all have a responsibility to protect our planet for future generations. By purchasing ECO garments you are protecting your child’s future in several ways. By reducing carbon emissions through the manufacturing process, by reducing the amount of plastic and inferior unsustainable garments that reach landfill and by purchasing garments that last many times longer you are reducing the amount spent on uniform. Glance at the attached leaflet. Its impressive!
